

Million team Self-reflection

Xiangyu Chen

Time: 07/10/2019(Week10)

Role(s): Software Developer/User Experience Research

1. What have I done since the last time reported?

I rebuild all pages by ajax method and send the data from add page and update page to backend.

2. Self-reflection?

Our backend is confused about the structure of these data and we should communicate with backend about which data we will send early.

3. What is the planned until next time report?

Prepare for the Audit3 and presentation.
