Million team Self-reflection
Xiangyu Chen
Time: 05/10/2019(Week9)
Role(s): Software Developer/User Experience Research

1.   What have I done since the last time reported?

I rebuild the degree and course page by ajax method and successfully send degree data to backend. I improve the search table of major, minor and specialization page.

2.   Self-reflection?

It may be a little late to finish sending data functions. We should communication with backend about which data we will send and the structure of this data.

3.   What is the planned until next time report?
Rebuild all pages by ajax method and sending all page data to backend.
