Million team Self-reflection

Yichen Li

Time: 22/09/2019(Week7)

Role(s): Developer/Test manager

1. What have I done since the last time reported?

I continuously participated in the frontend team for User interface. In detailed, I researched for html coding skills and Django structure while modify mms (major, minor, spec) pages.

I did research about early testing things about test cases and UI testing survey.

2. Self-reflection?

This week I also have two midterm exams as Rui and costs me a lot of time and energy. I will spend more time on this in the next few weeks on helping frontend group or potential testings.

3. What is the planned until next time report?

Focus on the Creat and delete functions of UI and fix bugs with frontend team. If needed, I will design User interface testing cases and testing survey.
